

The 11th International Symposium on Measurement Techniques for Multiphase Flow – 2019

November 3--7, 2019. Zhenjiang, Jiangsu, China

ISMTMF'19

FINAL ANNOUNCEMENT

ORGANIZED BY:

- ✧ National Natural Science Foundation of China
- ✧ The Chinese Society of Measurement Techniques for Multiphase Flow
- ✧ The Japanese Society for Multiphase Flow

SPONSORED BY:

- ✧ Jiangsu University

Conference Website:

<http://ismtmf2019.ujs.edu.cn/>

BACKGROUND

After enthusiastic responses to the past ten ISMTMFs held in Nanjing (1995), Beijing (1998), Fukui (2001), Hangzhou (2004), Macau (2006), Okinawa (2008), Tianjin (2011), Guangzhou (2013), Sapporo (2015) and Hong Kong (2017), the 11th International Symposium on Measurement Techniques for Multiphase Flows (ISMTMF) will be held in Zhenjiang at November, 2019. The focus of this symposium will be on the latest progress in the development of measurement techniques for multiphase flows and exchanging new information among scientists and engineers working in research institutions and industries.

This symposium aims to provide an international forum for presentation, exchange of ideas and creation of knowledge in recent advances on various aspects of theories, analyses, and applications of measurement techniques in complex multiphase/multicomponent flows. It will bring together researchers and practitioners from academia, research institutions and industry to exchange experiences, disseminate up-to-date information, and explore new opportunities in the field; in particular, it will expose young or new researchers to the state of the art in the field by means of the symposiums. It is anticipated that the 11th International Symposium on

Measurement Techniques for Multiphase Flows – 2019 (ISMTMF 2019) will provide an opportunity for stimulation of the researchers as well as for furthering cooperation among the investigators in the field of advanced Multiphase Flow Measurement Techniques.

CALL FOR PAPERS

ISMTMF2019 will focus on the following topics (include but not limited to):

- ✧ Fundamentals of multiphase flow measurement techniques and experimental methods
- ✧ Novel sensors and measurement methods of multiphase systems
- ✧ Information technology for multiphase flow
- ✧ Process tomography and flow visualization
- ✧ Intelligent instruments and monitoring systems
- ✧ Optical, non-intrusive and other advanced measurement techniques
- ✧ Micro/nanoscale multiphase flow measurement techniques
- ✧ Bio multiphase flow measurement techniques

ABSTRACT SUBMISSION

Papers will be selected based on one page abstracts (A4, single space, Times New Roman letters of 10 font size) including results and figures. Papers submitted should include the title of the paper, authors' names and affiliations, a concise statement of the problem, method of approach, results and discussion, and conclusions. Please identify the corresponding author. Electronic submissions are strongly encouraged. Template is available from the symposium website (<http://ismtmf2019.ujs.edu.cn/>). Please submit your abstract in a Word or PDF format to the ISMTMF'19 Secretariat via e-mail (ismtmf@ujs.edu.cn). The file size is limited to 5MB.

REGISTRATION FEES

Early Registration (by September 15, 2019)

- ✧ Regular 390USD/2800RMB; Student 290USD/2000RMB

Standard Registration (after September 15, 2019)

- ✧ Regular 500USD/3500RMB; Student 350USD/2500RMB

Registration On-Site:

- ✧ Regular 550USD/3850RMB; Student 400USD/2800RMB

Spouse Registration: 150 USD/1000 RMB

IMPORTANT DATES

Abstract:

Deadline of abstracts	Aug. 31 st 2019
Notification of acceptance	Aug. 15 th 2019 (1 st round)
	Sep. 15 th 2019 (2 nd round)
Full paper submission (Optional)	Sep. 30 th 2019

Organizing Committee

Honorary Chair
General Chairs
Co-Chairs

CONFERENCE VENUE

Crowne Plaza Zhenjiang, China
 Crowne Plaza Zhenjiang, No.27, ChangJiang Road

International Scientific Committee

Yutaka Abe	University of Tsukuba	Japan
Daniel Attinger	Iowa State University	USA
Xiaofang Cheng	Univ. of Sci. and Tech. of China	China
Feng Dong	Tianjin University	China
Tiegang Fang	North Carolina State University	USA
Liejin Guo	Xi'an Jiaotong University	China
Hui Hu	Iowa State University	USA
Yannis Hardalupas	Imperial College	UK
Atsuhide Kitagawa	Kyoto Institute of Technology	Japan
Akimaro Kawahara	Kumamoto University	Japan
Hiroshige Kikura	Tokyo Institute of Technology	Japan
Jidong Lu	South China University of Technology	China
Shi Liu	North China Electric Power University	China
Yingzheng Liu	Shanghai Jiao Tong University	China
Yang Li	Guangdong University of Technology	China
Zhigang Li	HKUST	China
Tomio Okawa	The University of Electro-Communications	Japan
Kuangfang Ren	Rouen University	France
Yasushi Saito	Kyoto University	Japan
Cameron Tropea	Darmstadt University	Germany
Hisashi Umekawa	Kansai University	Japan
An-Bang Wang	National Taiwan University	China
Fei Wang	Zhejiang University	China
Yingxiang Wu	Chinese Academy of Sciences	China
Simon Yu	Singapore Institute of Technology	Singapore
Yongrong Yang	Zhejiang University	China
Tianshou Zhao	HKUST	China
Desheng Zhang	Jiangsu University	China
Hongjian Zhang	Zhejiang University	China
Huaichun Zhou	Northeast Electric Power University	China

International Organizing Committee

Bofeng Bai	Xi'an Jiaotong University	China
Mingdong Dong	Aarhus University	Denmark
Bailing Huang	HKUST	China
Zhiyao Huang	Zhejiang University	China
Tatsuya Hazuku	Tokyo University of Marine Science and Technology	Japan
Masaaki Ishikawa	University of the Ryukyus	Japan
Hideki Murakawa	Kobe University	Japan
Shuichiro Miwa	Hokkaido University	Japan
Yoshihiko Oishi	Muroran Institute of Technology	Japan
Lihui Peng	Tsinghua University	China
Huihe Qiu	HKUST	China
Hong Qi	Harbin Institute of Technology	China
Mingxu Su	University of Shanghai for Sci. and Tech.	China
Manuchehr Soleimani	University of Bath	UK
Zhiqiang Sun	Central South University	China
Masahiro Takei	Chiba University	Japan
Chao Wang	Tianjin University	China
Huaxiang Wang	Tianjin University	China
Mi Wang	University of Leeds	UK
Charley Wu	University of Surrey	UK
Xuechen Wu	Zhejiang University	China
Chuanlong Xu	Southeast University	China
Lijun Xu	Beihang University	China
Jianping Yuan	Jiangsu University	China
Wuqiang Yang	University of Manchester	UK
Yong Yan	University of Kent	UK
Mao Ye	Dalian Institute of Chemical Physics, China Academy of Sciences	China
Yuyin Zhang	Shanghai Jiao Tong University	China
Yingna Zheng	Guangdong University of Technology	China

International Advisory Committee

Xiaoshu Cai	University of Shanghai for Sci. and Tech.	China
Koichi Hishida	Keio University	Japan
Yuichi Murai	Hokkaido University	Japan
Martin Sommerfeld	Otto-von-Guericke University (Magdeburg)	Germany
Yimin Xuan	Nanjing Univ. Aeronautics and Astronautics	China

ZHENJIANG CITY

Zhenjiang is a well-known historical beautiful city which locates on the south bank of Yangtze River. The Yangtze River and Grand Canal set cross at the side of the city. The citizen with Eastern and Western Chinese culture background live together here. Zhenjiang is a superposition of Shanghai Economic zone and Nanjing Metropolitan Belt. Zhenjiang covers an area of 3843 km² with the people of 2.92 million. Zhenjiang is situated in Yangtze River Delta which is the most developed and active area in China. It is famous for its convenient transportation of railway and boats, with the fertile land of honey. From early times, Zhenjiang was known as the port city for business.

Zhenjiang is also a national historical culture city, which is one of the birthplaces of Eastern Chinese culture with civilized history more than 3000 years. Zhenjiang is best known as "The City with Hills and Woods" and "The Landscape by Yangtze River". The mountains from West China are ended in Zhenjiang, the rivers and canals go through and surround the city.

ACCOMMODATION INFORMATION

Conference Hotels:

Crowne Plaza Zhenjiang, China

Crowne Plaza Zhenjiang, No.27, ChangJiang Road

✧ Special rate for participants at 450RMB/night/room, with 1-2 Breakfasts.

Welcome to Zhenjiang!
